06/2018 - 03/2019,

Nalgonda

CAREER OBJECTIVE

To secure an internship position as a Computer Science graduate, I am eager to apply my strong skills and passion for innovation in a practical setting.

My goal is to contribute effectively to a dynamic team, gain valuable hands-on experience, and refine my coding abilities.

I am enthusiastic about actively participating in projects that drive organizational success, fostering continuous learning and growth.

SKILLS

C C++ Java Data Structures

Database Management Systems

Operating Systems (Linux & Windows)

Computer Networks & Web Development (Beginner)

STRENGTHS

Quick learner with a solid technical aptitude, adapting easily to new technologies and tools

Strong verbal and written communication skills, essential for conveying technical information

Proactive and self-motivated, taking the initiative to learn and apply new skills independently

CERTIFICATES

Attended a National Level Workshop on Haptic Control of Robotic Devices organized by Robokart, earning certification from JNTUH.
